RE: DOCKET #00P-1211/CP1

Dear Commisoner Henney -

I am very concerned for the health of my family, friends, and fellow Americans, in regards to genetically engineered foods. I am really upset that we are being sold GE foods that have not been adequately tested, or properly labeled. This is wrong!

The FDA should respond to the legal petition, Docket #00P-1211/CP1, filed March 2, 2000. It is asking that GE foods be labeled and safety-tested. OF COURSE THEY SHOULD BE.

It is time **NOW** for America to transition to organic food for all, to re-institute the food chain as Mother Nature intended it to be.

Sincerely, Arisa Victor Arisa Victor
