Docket Management Branch.

To Whom it May Concern:

Just a reminder of the importance of just and kind treatment of the animals which are classified as Downers.

We should never include the marketing of risky animals for human consumption actually, the food chain for man or beast should Never include downers.

We object to all dragging and tractor etc pushing of sick and injured animals. It's degrading to us and abuse to the afflicted animals. It's inhumane and a torture for the defensless animal. One wonders where ever a person is able to find peoples to engage in this inhumane action, perhaps, from under a rock as my best guess.

It seems better care and handling should alleviate alot of this insensible act and prevent the abuse.

The leaders and officials of U.S. Drug & U.S. Food admin. have the responsibility to direct and maintain a respectible attitude and action toward the goal of prohibiting the slaughter of downed animals. They should Never be accepted into the service area but instead a program of decent humane disposal be instigated.

We urge you to grant Petition 98P-0151/CPI

Stop downed animal trade Now..

Sincerely

Bent Pat Ender and Associates.
