I am writing this letter to Please urge you to grant Petition 98P-0151/CP1 to prohibit the Slaughter of downed animals. Animals that are too sick to stand or even injured should not be allowed into the human food chain, these animals are also at a greater risk for bacterial contamination. These animal compria only a very small percentage of the animals slaughtered, and to avoid these animals would cause no economic Hardship either. For our safety and yours please take grave consideration in this Petition!

Please remember These are living and breathing creatures and should be Treated humanely most of all!!

Sincerely
Lorraine Fogelson
