Dockets management,

Please can you not slaughter downed animals?? What good is that!!!

Also why do you allow lab testing on animals??? It does not good for humans, they are not made like humans, there eyes are different, there stomachs are different,

Do you know these animals can feel pain, How would you like to feel that pain?? We would die from (scho) shock, excuse my writing but I'm mad, + sick and tired of no one caring about the cruelty done to animals, I am ashamed that America isn't better at this, I have written you several times and have recieved no response, Are you afraid to write me back??
