Jan 26, 2001

Dear Sir,

I'm refering to Docket
9017 '01 JAN 31 A10:41
number 98P-0151/CP1.

Animals to sick or injured should not be allowed to enter the food chain. There is evidence of some downed animals afflicted with BSE or (Mad Cow Disease) which has been linked to a fatal human illness. These animals are treated with inhumane processes when trying to move them. Dragged with chains or pushed with tractors is horrible and very cruel, also must be stopped, better care, and handling can prevent a lot of downed animals. Removing these poor animals for market will also help to prevent downed animals. Please help

98P-0151

C 3747

these poor, helpless animals &
~~make~~, and stop the spread of the disease
which is fatal to people & animals.

Thank you

Ann Marshall
