US Food and Drug Administration, 1-25-2001

I'm writing to you to urge you to grant petition 98P-0151/CP1 to prohibit the slaughter of downed animals. Animals who are too sick or injured even to stand should not be allowed to enter the human food chain. It is impossible to raise downed animals humanely. Industry experts have estimated that 90% of downed animals can be prevented with better care and handling, lessening the market for downed animals will provide an incentive to industry to prevent downed animals in the first place.

All animals should be treated humanely!

Please grant the passage of petition 98P-0151/CP1.

Thank you for your consideration.

Sincerely,

Marlene E Moe
