Re: Petition 98P-0151/CP1-
prohibing slaughter of
downed animals.

To Whom It May Concern:

I urge you to grant Petition 98P-0151 prohibiting the slaughter of downed animals.

Animals too sick or injured to stand should not be used for food of any kind. Prohibing the slaughter of downed animals would help protect the health of humans and pets. Finally, the meat industry would have a stronger incentive to prevent downers through better care, shipping and handling.

It is primitive and short-sighted to allow the slaughter of downed animals. Please grant this petition. Thank you.

Sincerely,
Linda E. White
