11/25/2000

Dear Ms. Henney,

This is in strong support of a legal petition by the Center for Food Safety. Please require that: 1). No new genetically engineered foods or products be released having GE ingredients until after the FDA requires long-term safety testing of all GE foods before they go to market, and 2). All GE foods presently on the market be clearly labeled, as customers must have the right to know the contents of food. And because of likely certain risk of genetic drift, testing must be carefully quarantined. Sincerely, [illegible]
