Dear US-FDA, Feb. 2001

I am writing to urge you to please grant PETITION 98P-0151/CP1 which would prohibit the slaughter of DOWNED ANIMALS.

Many people in the livestock industry as well as those who champion the cause of humane treatment of animals agree that this is a bill that is long overdue! We need to protect human health & end the cruelty.

The recent "MAD COW DISEASE" crisis in Europe should already have been the impetus for passage of this bill! How long must we wait? It is now a reality that there is something seriously wrong with the way in which we treat farm animals. The "ANIMAL-RIGHTS" people were right all along. When will the rest of the people wake up?

Please grant PETITION 98P/0151/CP1

Thank You, C 4014
