Good Morning!

Read where your agency is looking for drug labelling comments -

I suggest all Prescription labels have a colored border, to signify a certain meaning for example -

Red Border - no refills on prescriptions Controlled substance

Blue border - something else

Green border, etc -

The color would help identify the type of medication that being used and calls attention to special usage —
Most people today take more than medication than ever.
I hope this suggestion is helpful —

Very truly yours
M/Mrs Abe Cantor
