Downed Animals

I implore you to please grant the above petition on behalf of the innocent animals + public health.

1. Animals too sick or injured should not be allowed to enter the human food chain. Animals could have BSE (Mad Cow Disease).
2. It's not possible to humanely move downed animals. Generally, the are pushed with tractors or dragged with chains — increasing the severity of their injuries + causing new injuries.
3. Removing the market for downed animals will provide an incentive to the industry to humanely care for + handle animals + prevent downed animals to begin with.

Please, grant Petition
98P-0151/CPI.

Sincerely,
Carla J. Cicchi
