National Audubon Society

12 February 2001

Gentlemen

I am opposed to your stand on genetically engineered foods. I do not think voluntary labeling and the notification proposals are adequate to protect me or the public. I would like labeling so that I can determine if the food is healthy or not. Before any food is marketed it should be thoroughly tested for at least a year before releasing for human consumption.

John Konopka

Green tree frogs

Louisiana's Atchafalaya Swamp, home to these two Green tree frogs, is also a nesting and feeding

at 1-800-274-4201.
