To: US Food and Drug Administration,

I'm writing to say I disapprove of all xenotransplantation clinical trials and I feel they should be stopped immediately. I worry about the health and ethical issues involved in such research. The answer is for humans to donate their organs and you need to spend money to inform Americans what they need to do to help save another life by donating their organs. I'm referring to docket number 00N-0989. I feel all this information should be available to the public, and not hidden away in secret. Thank you.

C 132

Sincerely,

Stacey Murrow
