Feb. 5, 2001

Dear Commissioner, 0686 '01 FEB -8 P2:27

As a thoughtful consumer, I want to know what's in the food I eat and feed to my family. If I were an Orthodox Jew, no one would question my right to know which foods were Kosher or not. As a person with a family history of cancer, I believe eating foods that are as natural as possible are in the best interest of my family's health. Why can't foods simply be labelled non-GMO and we can decide what we want to buy?

Just because something makes somebody some money doesn't mean it's a good idea. And isn't the FDA supposed to protect our food supply, and consequently, our health

Thank you for your thoughtful consideration —
