We are also concerned for the future of Thomas Navarro. He is the lad with brain surgery and his parents desire their choice of treatment.

Is there any way you could help these folks be free to do their will before it's eternally to late? Thank you again

M. L.

Commissioner Jane Henney:

We appreciate the fact we have an F.D.A to help us with our food supply.

We are concerned about genetically engineered food. Please support the Citizen Petition Docket #00P-1211/CP1. May I ask that all foods be tested & marked GE so I may have a choice.

For a moratorium on all GE foods until requirements are met. Recent studies show GE foods could create new toxins, antibiotic resistance, allergic reaction and as such are not generally recognized as safe "GRAS". Chronically ill may unwittingly consume genes to cause even lethal complications.

Thanks for your concern.

Marjorie King
