temozoid
capsules

Feb 6/2001

Dear Commissioner

I urge you to ban the use of human antibiotics to make livestock grow faster. This use has become the principal cause (according to the Center of Disease Control + Prevention) of antibiotic resistance in food-borne bacteria like salmonella + campylobacter. One strain of salmonella is now resistant to 5 antibiotics. The European Union has already banned all growth-promoting uses of antibiotics that have a role in human medicine. The WHO in June repeated its call for the termination of the use of antimicrobials as mentioned above.

Sincerely
Dini Schut
