To Mr Friedman

I am writing concerning that you allow testing on animals for pharmaceuticals. I cannot believe that you can allow such ~~cruelty~~ cruelty to the precious little animals. These animals are a gift from God. There is other ways. You have the power to change it. I do not buy product that ~~Procter & Gamble~~ make. I will do everything in my

C 3093

99P-0485

power to see that others do the same. I will continue to speak up for Animal rights. Do yourself a favor and search your heart and ask God to search your soul for the ~~writ~~ right thing to do.

We are a very rich Country and ~~wke~~ we have the right to change things that are not right. This is very wrong. Please think about what you allow.

Sincerely yours
Donna Sheets
