1/29/01

Michael Friedman,

I am writing to beg you to stop requiring Cruel and obsolete animal tests for pharmaceuticals and instead allow the Companies to substitute in vitro tests for the safety of both humans and animals.

think of all the same tests that have been done over & over again with the same result. That alone could be stopped Couldn't it? This animal torture has got to be stopped It is Cruel & unnecessary especially when there are other ways

Sincerely
melody
