3/9/01

To FDA:

0260 '01 MAR 13 P1:41

How dare you refuse to protect my right to know about the food I eat!! You are supposed to be the guardian of our health concerns — not kowtowing to big businesses who have probably bought you off. Your branch of our government is a farce. Why should those of us who eat consciously (AND because of health problems) have to beg or ASK for you to keep shit out of our food.

I have many food allergies & have to watch everything I eat or SUFFER
