Dear Jane,

I am writing in support of a legal petition by the Center for Food Safety.

In doing so, I ask that you require that no new genetically-engineered foods or products with GE ingredients be released until the FDA does some extended term safety testing. Also, all GE foods currently on the market must be labelled as such, giving consumers the right to know what's in the food we eat.

Caution is all I seek from you and your office at this time. Please assume me of that minimal amount of prudence.

Sincerely,
Rev. Michael J. Barrett
