Re: Docket # 00P-1211/CP1

Dear Commissioner Henney:

I am writing this letter today in support of the Center for Food Safety's legal petition demanding mandatory pre-market safety testing, environmental review and labeling of all genetically engineered foods. I am joining the 50,000+ people who have already written in support of this effort. Our voices need to be heard and recognized. We are concerned about the health of our future generations. Many people today are taking on very selfish attitudes towards life and are only concerned about themselves and living today. Please look at the whole picture and make a responsible decision. Thank you.

Sincerely,

Mrs. L. Garibaldi
