RE GE Foods

In our time, when personal knowledge & relationships with a food providers is almost impossible, we depend on you, the government to check that we don't get poisoned by scrupulous food producers. I don't trust an industry that uses chemicals, pesticides and additives such as Antibiotics, with abandon. So, why should I trust the safety and healthfulness of GE food. The least you can do is to have food with GE parts added labeled clearly

so we can avoid such food if we don't trust it.

We depend on you!

Sincerely,

Aurelino
