FDA
Rockville, MD. 5206 '01 MAR 16 P3:32

Dear Commission:
We have the right to know whats in our food. GE foods need to be labeled so health conscious people will know to (not) use them. They have not been studied enough.

Sincerely,
Joyce + Don Paulson

DEAR FDA,

I am writing to express
the FDA's new propose
on genetically engineered
agency's voluntary labeli
proposals are totally inadequate to
human health, the environment, and my
right to know. I fully support the following:

- All GE foods and food ingredients should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be safe and should be subject to mandatory pre-market safety testing.
- There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.
