re Docket No 00D-1598 & Docket 00N-1396

Dear Commissioner:

I am very concerned about genetically engineered foods. With voluntary labeling no one knows anything about the product. It may cause allergic reactions, compromise immune responses, have lower nutritional value. We should know what we're eating. Labeling must be mandatory.

Delay no longer. Protect the populace AND the environment. Require mandatory safety testing and labeling of all genetically engineered foods.

Yours sincerely,
(Miss) Elva Hunting
