docket # OOD-1598 & OOH-1396

Dear Commissioner,

The FDA should be a regulator, not a promoter of the food industry. I am growing increasingly concerned about the role of government in industry and subsequent decline in my food choice.

I urge you to require both labeling and pre-market safety testing of these novel foods that present unique and unforeseen hazards. As I wish to avoid these foods for myself, family and friends, I find it frustrating that the FDA continues to deny me my Freedom of Choice!

Sincerely

Paul Martinez
