Dear Ms. Henney;

I write to you in support of a legal petition by the Center For Food Safety. Please require that no new genetically-engineered foods or products be released until the FDA has carried out long-term safety testing of all GE foods before they go to market. In addition, we must labeling of new products, corporate accountability to public regulation and consumer.

Consumers have the right to know what's in the food they are eating. As our regulatory & consumer protection agency, I urge you to take the greatest caution in the development of GE foods.

P.S. I would greatly appreciate a response to my concern - GE foods.

Sincerely yours,
Mary Rose Curtis
