Park Ridge, N.J. 1/13/01

Dear Commissioner Jane Henney

I am appalled that the FDA is tolerating genetically Engineered Foods. As a 68 year old immigrant from Switzerland most of my life I ate organically grown foods and as a result I still run the mile in 6 minutes.

I could give you many instances where I do see that the FDA does not care about good health and the well being of the American people!

Respectfully

Hans Hunziker
