3/17/99

Dear Commissioner,

I beg you to act on docket # 98P-0151/CP1 and stop the slaughter of downed animals for human food supply.

MAR 22 A9:51

Using downed animals in the human food supply is a violation of Federal law. Animals unable to stand are classified as deceased and the law prohibits the slaughter of diseased animals for food for human consumption. Therefore the practice of slaughtering downed animals for human food must stop.

Sincerely,
Bernita Bedford
