To Jane E. Henny,

I want all genetically engineered foods to be labelled as such!! When I go to buy my food, I must know which foods are genetically engineered!! This is because I have allergies to certain food substances and additives and must know exactly which of my foods have been genetically engineered!!

Most Americans are like me and we want to know: what kind of food we are eating!! It is simple "common sense" that we Americans have a right to know what kind of food we are eating!!

Please label all genetically engineered foods and conduct long-term safety studies on these GE foods!! OVER

92N-0139

C 4983

My address:

Wendy de Martini
The Shores Apartments
179 Lakeshore Ct
Richmond, Calif. 94804

Sincerely,
Wendy de Martini

(P.S.) To re-cap my request:
I want all G.E. foods to be accurately ~~labelled~~ labeled and I want "long-term" safety studies done on all genetically engineered foods!! This is crucial for me and millions of other Americans!!
