I vehemently oppose the MOU draft being proposed by the FDA. Specifically, the use of the definition "inordinate amount" must be dropped. I must have access to unique compounded medications across state lines. The effectiveness of different medications varies across state lines and from pharmacy to pharmacy.

I currently take vitally important compounded medication which I use to restore muscle strength, alleviate depression and anxiety, strengthen my spine and uterine function, as well as skin and intestinal function to a substantial degree.

Sincerely,
Lisa C. Cook
