3/18/99

I strongly oppose the draft M.O.U. being proposed by the FDA. Specially I object to the definition of "inordinate amount" which restricts the availability & the right to get medically necessary compounded medications by limiting the # of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

402 '99 MAR 24 A9:58

I take a natural progesterone that is unavailable in New York. For years I have been trying various prescription versions of progesterone to alleviate menopausal symptoms — and they only made me feel worse. I was so tense and anxious from these medicines, I thought I was going crazy.

Please do not interfere with my ability to order natural progesterone by mail. My life will be changed — for the worse. I feel good for the first time in years.

Sincerely,

Beverly Shipko
