To Whom It May Concern,

On behalf of the UW-Madison Greens, a campus group representing over 200 students, staff, faculty and other members at the Univ. of WI-Madison, I would like to express our opposition to any elimination of federal labeling requirements for irradiated foodstuffs - docket # 98N-1038. Because of widespread concern about the health integrity of irradiated foodstuffs, consumers have the right to know just what they are purchasing and to make a fully informed decision. The safety issues surrounding food irradiation have not been sufficiently resolved and the FDA should mandate proper labeling until the situation is otherwise. We look forward to receiving your response.

Sincerely,

John E Peck
