Enhancing the Quality of Life Through Dentistry

Regarding FDA 8936 90 MAR 30 P2:05 # 98N-1265

Please do not limit the quality of my life by restricting my ability to obtain medication I can not obtain from commercial pharmacies in my area. This medication is the only thing that has relieved my symptoms and allowed me to live normally throughout the month. It was prescribed by my doctor. You should not be interfering with this relationship as long as we are in our legal rights

Thank You
