To the FDA:

We are writing this letter to express our concern and disapproval of the M.O.U. that was published on January 21, 1999.

As health care consumers, we have seen our choices narrow. The proposed M.O.U. published by the FDA on January 21, 1999 would be just another blow against all health consumers. The M.O.U. must be changed!!

The M.O.U. needs to be amended so that there are no restrictions to the delivery of a compounded medication prescribed for individuals, regardless of where we may live or travel.

Please don't take our choices away -

Sincerely,

Valorie Van Dahl-Gertz

P.S. the "inordinate amount" statement in the M.O.U. represents a limitation which would compromise the quality ~~the~~ of health + life.
