Dear Mr. Jaffe,

I strongly support the petition to ban the forced molting of layer hens (DOCKET 98P-0203/CP)

It is disgraceful the way these poor hens are tortured to death — and all for the sake of greed.

Maybe when people start to get really sick from Salmonella poisoning will you people wake up and do something about the outrageous abuse of these birds.

It is abusceful, unnatural & dangerous!

Sincerely,

Mrs. Roberta E. McGlynn
