Dear Sir/Mrs/Miss/Ms:

Regarding the issue of labeling on irradiated foods, I respectfully request prominent and conspicuous labelling of All irradiated food, including food products containing irradiated ingredients. And that this labelling continue permanently, just like other consumer information labelling.

Incidentally Codex standards require this, already.

The term "irradiation" should be mentioned At least once on label, and along with radura symbol → . It's up to the irradiators themselves to educate people about →
