Dear People at the FDA, Dockets Mgmt Branch (HFA-305)
regarding Docket No. 98N-1038

7846 '99 APR 13 A9:55

I want to express my support for the prominent and conspicuous labeling of irradiated foods and that the actual word "irradiated" be used. These labels, like other types of consumer labeling, need to be permanent; the international labeling standards need to be fulfilled.

People need to be aware of what they are putting into their bodies and into those of their children and babies. The public needs information on which to base their decisions.

I look forward to hearing your decision on this very important issue for the consumer.

Regards,

JoAnn Herbert R.N.
