April 8, 1999

[redacted]

[redacted] establish, through the FDA, a ban on the [redacted] of Antibiotics for promoting growth in farm animals. [redacted] the results of such use: antibiotic [redacted] farms that are a threat to human health.

[redacted] I do not eat meat, and think there is over-consumption of meat in our country, which led meat producers [redacted] practice. Not only do people hurt their [redacted] in the first place, but they're compounding the damage by now becoming immune to the good effects of antibiotics, all because it's in what they eat. [redacted] consumers and farm animals, please do [redacted] the use of antibiotics in farm animals.

Sincerely,

Kathy Winkler
