Hello,

4-9-99

Re: Docket # 98 N-1038, Irradiation in the production, processing, + handling of food

Please continue to require labeling of irradiated foods. Continuing to be able to separate out those foods which have been irradiated - + I would choose not to eat - is important to me. This choice is only possible if proper labeling use of the radura symbol or the word irradiated has worked; please continue it.

Thank you, Wini Noyes
