April 10th, 1999

Dear Lyle D. Jaffe,

6401 '99 APR 16 A10:26

I am writing in regards to the forced molting of Layer hens. Research shows that forced molting is a major cause of salmonella poisening in eggs. What is done to the birds is sickening — causing extreme suffering, sickness and death as a result of this. Many describe it as "hideous".

I am writing to you to support the petition to ban the forced molting of Layer hens (DOCKET 98P-0203/CP). Please support this — it will help us all to have better health and prevent the horrendous practice of forced molting.

Thank you in advance for reading and considering this seriously.

Sincerely,

Rochelle Tout-Ferne
