225 RIDGE AVENUE
WINNETKA, ILLINOIS 60093

Dear Sirs,

6305 '99 APR 16 A9:25

I am urging you to support mandatory safety tests and labeling of genetically modified foods.

How do we know what the consequences will be in the years to come when genes are transferred from one species to another?

Thank you for your serious consideration.

Sincerely,

Susanne C. Jesser
