Rockville, MD 20855

9851 '99 APR 22 A9:36

Dear Mr. Sundlof:

As a citizen concerned about human health as well as animal well-being, I urge you to ban antibiotics used to promote growth in farm animals. This is an unethical practice — which leads us to see animals as "things" to be manipulated for economic gain — and this, in turn, leads to seeing people merely as "consumers".

Sincerely,
Dorothea S. Goetz
