U.S. Food & Drug Admo,

0160 '99 APR 23 A8:53

Dear Friends:

The FACT organization described to me the real danger of the forced molting of laying hens.

After reading their description I just had to write and beg you to ban this practice.

This same organization also hopes you will ban the use of antibiotics as growth promoters for farm animals. What appears to be a money-maker to some uninformed farmers can well have the opposite result!

I would so much appreciate your consideration of banning the two practices mentioned above.

Yours truly
(Mrs) Betty P. Dale
