April 21, 1999

Dear FDA:

I oppose the M.O.U. draft being proposed by the FDA. We must not restrict the availability and the right to get necessary compounded medications (including vitamins) by limiting the number of prescriptions that can be shipped over a state line. The proposed definition of "inordinate amount" must not be accepted!

0888 '99 APR 21 A9:58

Both of my children and I are sensitive or allergic to many additives (corn starch, food coloring, ect.) in most prescription drugs. We need free access to medicine and vitamins that will not make us sick!

Sincerely,
Judy Stephenson
