35 Kilikai St.
Hilo, Hawaii 96720
April 19, 1999

To the Food and Drug Administration:

I strongly oppose the intent of the Draft Memorandum proposed by the FDA to limit the ability of formulary pharmacies to ship medication meant for personal use across state lines. The definition of "inordinate amount" would limit and restrict the availability of and the right of citizens to obtain medically necessary compounded medications customized to the individual patient.

Sincerely,
Roseline B. Smith

98N-1265
