To Whom It May Concern:

0911 '99 APR 27 A10:06

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications, by limiting the number of prescriptions that can be shipped accross state lines from specialized compounding pharmacies.

I have been using medication that is purchased from a specialized compounding pharmacy, for several years. I am very satisfied with the results of the medication — results that were not obtained using standard pharmaceutical preparations prescribed for my condition. I had terrible side effects from the standardized prescription drugs. I have NO SIDE EFFECTS from the compounded medication prescribed by my physician and provided by a compounding pharmacy. "One size" does not "fit all".

Thank you for your consideration in this matter. I am certain there are many others who feel as I do.

Sincerely,

Valerie Corbin
