April 20, 1999

Dear Madam/Sir,

I urge the FDA to continue the labeling of irradiated foods which are becoming more & more prevalent. I am opposed to the whole technology of food irradiation. Fortunately, by eating only organically grown food I am able to protect myself from the imposition of this technology which harms not only human health but the environment.

01219 99 APR 26 A9:45

Sincerely,

Olenka Folda
