Dear Sirs: April 23, 1999

I am writing to ask you to ban the 13 APR 28 A9:48 forced molting of laying hens. Feed is withheld for several days to cause the hens to molt + therefore to lay more eggs. The bottom line is profit. This practice is inhumane + also increases the occurence of Salmonella, a food-borne pathogen causing wide spread human illness.

Thank you,

Marilyn Evenson
