4-22-99

To Whom It May Concern,

1410 '99 APR 28 A10:16

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability & the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across State lines from specialized compounding pharmacies.

Sincerely,

Theresa S. Bernardi

98N-1265
