DEB CONGDON

To Whom It May Concern,

As a nurse with medical back ground and a person who sees natural products as a great asset in health care - I oppose the Draft Memorandum being proposed by the FDA. In particular I object to the definition of "inordinate" amt" which restricts the availability and the right to obtain medically necessary compounded medication by limiting the number of prescriptions that can be shipped across state lines from specialized compound pharmacies. This looks like greed from the Big Pharmacies!
